

Disappointed in your MATH ACCUPLACER results? Got 3 weeks?

COULD have done better if you had *refreshed* your memory?

Then **FASTTRACK** may be the **program** for you!

HOW DO I START?

- Take the **Accuplacer** and place into Math 073, Math 075 or Math 095
- Feel **confident** that all you need is a refresher to place at a higher level
- **Dedicate** 3 weeks of free time to devote to relearning math concepts
- Be willing to **retake** the Accuplacer and hopefully score into a higher course!

How Much Does it Cost?

\$10.00 (credit card only)

Who Do I contact?
