

# Advance Your Career in Advanced Manufacturing

The Program Includes: **FULL SCHOLARSHIPS**

- To Train New Technicians: Books, Materials, Technical Equipment Package and Support for Certificate Testing Fees in a 10-month program
- Continuing Education Grants for Long-Term Success
- Professional Development Opportunities
- Instructorships

## Praxair is collaborating with Naugatuck Valley Community College to offer a full scholarship opportunity for students to advance their careers in manufacturing!

The Praxair *Skills Pipeline*<sup>™</sup> workforce development program provides funding to help train new technicians in a 10-month curriculum. The program also provides funds for instructorships, continuing education, and professional development opportunities. This community engagement program was developed to help meet the strong demand for skilled technicians in Connecticut and is an example of the company's continued commitment to developing a robust pipeline of men and women in the skilled trades.

The workforce development program will be offered by the Naugatuck Valley Community College in Danbury.

**Application deadline is August 7, 2020**
