\*Members are also asked to wipe down equipment after each use.

\*Members are encouraged to wash their hands before and after use.

## SPRING 2022 COVID-19 VACCINE REQUIREMENTS AND BOOSTER

According to the CDC, COVID vaccines are safe and effective at preventing COVID 19 infection and virtually eliminating severe illness and death. Infections happen in only a small proportion of people who are fully vaccinated and when these infections do occur, they tend to be mild. However, if fully vaccinated individuals become infected, there is some evidence they can spread the virus, though for a shorter duration than can unvaccinated people.

For the spring semester, the BOR of the CCSU which NVCC is a member, has required the COVID-19 immunization for all credit and non-credit students, faculty and staff. Booster is not required at this time.
