**Announcement:** Ron distributed status updates on the Gen Ed Core by Division.

**Presenter-** Ron Picard

1. Updates include courses that have been approved, rejected, or added to the core on pg. 51 of the Catalog. Each Division except Nursing was given a list of their courses. We reviewed and discussed placement of additional courses on each list. Discussion of need to complete spreadsheet of course competencies and distribution of this spreadsheet to Division Directors ensued. Ron will send to DD's when spreadsheet is complete.

2. Discussed need for a database to provide:

- access for all interested parties
- who will maintain the database?
- does it need to integrate with Banner?

Can this be built by February?

3. When is the Deadline for applications and revisions? End of Fall 2013 semester is target date.

4. A review of how currently approved courses fit into several current degree programs and what are some of the problems being encountered was shared.

MAT 137 required by programs- BOR wants higher level math course

Need for embedded written communication course- suggested it could be part of all aesthetics courses.

Should we revisit TAP as NVCC's Gen Ed vote based on these findings?
