BOR TAP's Learning Outcomes	Corresponding Outcomes for Course Named Above
1. Demonstrate competency in using current, relevant technologies to solve problems, complete projects, and make informed decisions.	Use various economic decision-making tools such as databases, computer online services and text resources.
2. Access, navigate, identify and evaluate information that is appropriate for their need(s) and audience(s).	Use various economic decision-making tools such as databases, computer online services and text resources.
3. Synthesize information to broaden knowledge and experiences and produce both independent and collaborative work.	Apply the techniques in Learning Outcome Two to everyday problems by analysis of current economic issues. (Learning Outcome Two is noted in Numbers One and Two above.)
4. Evaluate the economic, legal, ethical, and social issues surrounding the access and use of information and relevant technologies.	While accessing information via the use of technology, evaluate issues that are relevant to that access including ethics, legal and social issues and economic impact.

Additional Outcomes

Analyze and conduct basic secondary research in an economic framework.

Recognize all terms and definitions described in the assigned text readings
